Independent Agent Fee:	Up to \$0.15 per Note Security (0.15% of the Principal Amount of each Note Security sold), paid by the Bank out of its own funds.
Agents:	National Bank Financial Inc. ("NBF") and Laurentian Bank Securities Inc. Laurentian Bank Securities Inc. will act as Independent Agent.
Listing and Secondary Market:	The Note Securities will not be listed on any securities exchange or quotation system. NBF intends to maintain until the Final Valuation Date, under normal market conditions, a daily secondary market for the Note Securities. If the price or the level of the Reference Asset is not published or, in an applicable case, if trading in a Reference Asset is disrupted or suspended, or if any other Market Disruption Event occurs, NBF will generally deem that normal market conditions do not exist. NBF may, in its sole discretion, stop maintaining a market for the Note Securities at any time without any prior notice to Holders. There can be no assurance that a secondary market will develop or, if one develops, that it will be liquid. In addition, any sale of Note Securities facilitated by NBF may be subject to an early trading charge, deductible from the sale proceeds of the Note Securities. Holders who have purchased Note Securities using the FundSERV network will be limited to the FundSERV network to sell Note Securities.
Eligibility for Investment:	Eligible for RRSPs, RRIFFs, RESPs, RDSPs, DPSPs and TFSAs. See "Eligibility for Investment" in the Prospectus Supplement and the Prospectus.
Early Trading Charge:	No early trading charge.
Cost related to the Distribution Amount:	The Distribution Amount for a given dividend or other distribution paid by the issuer of a Reference Asset and on its ex-dividend date will be equal to the present value of the dividend amount or other distribution, minus an amount equal to any applicable withholding taxes that would be applicable if the Reference Assets were held by a Canadian Investor (15%), and converted into the Reference Asset Currency if applicable, using the applicable FX Rate. The present value is the value of the dividend amount or other distribution to be paid, discounted using the relevant Interest Rate plus 1% and the number of days between the ex-dividend date and the payment date. The amount, notionally deducted from such dividends or other distributions in respect of withholding tax (as described above) will not be paid to the Holder, regardless of the Holder's residency or account type.

Suitability for Investment

The Note Securities are not suitable for all investors. In determining whether the Note Securities are a suitable investment for you please consider that:

- the Note Securities provide no protection for your original principal investment, other than the minimum Maturity Redemption Payment of 1% of the Principal Amount per Note Security and the sum of all ROC Payments, if any, and if the Reference Portfolio NAV is less than the Remaining Principal Amount on the Final Valuation Date, you will receive an amount which is less than your original principal investment over the term of the Note Securities;
- in order for you to earn a return on your investment, the Reference Portfolio NAV has to increase sufficiently to offset the Up-front Selling Commission, if applicable, and the Up-front Structuring Amount, if applicable, which reduce the Reference Portfolio NAV;
- in order for you to earn a return on your investment, the Reference Asset Return Amount and the Reference Asset FX Amount of the Reference Assets have to increase sufficiently to offset the Daily Maintenance Amount reducing the Reference Asset NAV Change in order to increase the Reference Portfolio NAV;
- your investment strategy should be consistent with the investment features of the Note Securities;
- your investment time horizon should correspond with the term of the Note Securities; and
- your investment will be subject to the risk factors summarized in the section “Risk Factors” in the Prospectus Supplement and the Prospectus.

Risk Factors

The Note Securities differ from conventional debt and fixed income investments; repayment of the entire Principal Amount is not guaranteed. The Note Securities entail downside risk and are not designed to be alternatives to conventional debt and fixed income investments or money market instruments.

Investing in the Note Securities involves risks that are described under “Risk Factors” in the Prospectus Supplement and the Prospectus, including, without limitation, the sections therein entitled “Certain Risk Factors related to the Equity Linked Note Securities”. Purchasers are urged to read the information about these risks, together with the other information in the Pricing Supplement, the Prospectus Supplement and the Prospectus, before investing in the Note Securities. **Holders who are not prepared to accept the risks described in the Prospectus Supplement and the Prospectus should not invest in the Note Securities.**

NOTICE

The Note Securities will not constitute deposits that are insured under the *Canada Deposit Insurance Corporation Act* or any other deposit insurance regime designed to ensure the payment of all or a portion of a deposit upon insolvency of the deposit taking institution. The Note Securities differ from conventional debt and fixed income investments; repayment of the entire Principal Amount is not guaranteed. The Note Securities entail downside risk and are not designed to be alternatives to conventional debt and fixed income investments or money market instruments.

Amounts paid to Holders will depend on the performance of the Reference Portfolio. None of the Bank, its affiliates, the Agents, or any other person or entity guarantees that Holders will receive an amount equal to their original investment in the Note Securities or guarantees that any return will be paid on the Note Securities. Since the Note Securities are not protected and the Principal Amount will be at risk (other than the minimum Maturity Redemption Payment of 1% of the Principal Amount), it is possible that Holders could lose some or substantially all of their original investment in the Note Securities.

For the various risks associated with such an investment, please see the “Risk Factors” section of this document and the “Risk Factors” section in the Prospectus Supplement and the Prospectus. Any prospective investor must be able to bear the risks involved and must meet the suitability requirement of the Note Securities. Please see the section “Suitability of the Note Securities for Investors” in the Prospectus Supplement and the Prospectus.
