

This Pricing Supplement (the "Pricing Supplement") together with the short form base shelf prospectus dated July 3, 2018, as amended or supplemented (the "Prospectus") and the Prospectus Supplement thereto dated July 4, 2018 as amended or supplemented (the "Prospectus Supplement") to which it relates, and each document incorporated by reference into such prospectus constitutes a public offering of securities only in the jurisdictions where they may be lawfully offered for sale and therein only by persons permitted to sell such securities. No securities commission or similar regulatory authority has in any way passed upon the merits of securities offered hereunder and any representation to the contrary is an offence. The Note Securities to be issued hereunder have not been, and will not be, registered under the United States Securities Act of 1933, as amended and, subject to certain exemptions, may not be offered, sold or delivered, directly or indirectly, in the United States of America to or for the account or benefit of U.S. persons.

Pricing Supplement No. ACCI830 dated July 2, 2019

(to the short form base shelf prospectus dated July 3, 2018, as supplemented by the Prospectus Supplement entitled NBC Auto Callable Contingent Income Note Securities (no direct currency exposure; price return) Program dated July 4, 2018)

NATIONAL BANK OF CANADA

NBC Auto Callable Contingent Income Note Securities (no direct currency exposure; price return) Program

NBC Auto Callable Contingent Income Note Securities (Maturity-Monitored Barrier) linked to the Canadian market, due on July 27, 2026

(non principal protected note securities)

Maximum Can\$12,000,000 (120,000 Note Securities)

No minimum amount of funds must be raised under this offering. This means that the Bank could complete this offering after raising only a small proportion of the offering amount set out above.

This Pricing Supplement supplements the short form base shelf prospectus dated July 3, 2018 relating to \$4,500,000,000 Medium Term Notes of the Bank, as amended or supplemented, and the Prospectus Supplement dated July 4, 2018. If the information in this Pricing Supplement differs from the information contained in the Prospectus and/or the Prospectus Supplement, you should rely on the information in this Pricing Supplement. Holders should carefully read this Pricing Supplement, the Prospectus Supplement and the accompanying Prospectus to fully understand the information relating to the terms of the Note Securities and other considerations that are important to Holders. All three documents contain information Holders should consider when making their investment decision. The information contained in this Pricing Supplement and the accompanying Prospectus and Prospectus Supplement is current only as of the date of each.

The estimated initial value of the Note Securities as of the date of this Pricing Supplement is \$93.99 per \$100 of Principal Amount, which is less than the issue price. The estimated initial value is equal to 93.99% of the Principal Amount, being equivalent to a \$0.86 annual discount over the term of the Note Securities. The actual value of the Note Securities at any time will reflect many factors, cannot be predicted with accuracy and may be less than this amount. We describe our determination of the estimated initial value in more detail in the Prospectus. The Independent Dealer did not participate in the preparation of the estimated initial value for the Note Securities. See "Description of the Note Securities – Estimated Initial Value of Linked Note Securities" in the Prospectus.

The Note Securities differ from conventional debt and fixed income investments; repayment of the entire Principal Amount is not guaranteed. The Note Securities entail downside risk and are not designed to be alternatives to conventional debt or fixed income investments or money market instruments.

The Note Securities are non principal protected note securities and the Holder may receive an amount that is less than the Principal Amount over the term of the Note Securities. For greater certainty, throughout this Pricing Supplement, “maturity” wherever used herein, shall include Maturity Date, Call Date and Special Reimbursement Date.

The Note Securities constitute direct, unsecured and unsubordinated debt obligations of the Bank ranking *pari passu* with all other present and future unsecured and unsubordinated indebtedness of the Bank. **The Note Securities will not constitute deposits that are insured under the *Canada Deposit Insurance Corporation Act* or any other deposit insurance regime designed to ensure the payment of all or a portion of a deposit upon insolvency of the deposit taking institution.**

Amounts paid to Holders will depend on the performance of the Reference Portfolio. None of the Bank, its affiliates, the Dealers, or any other person or entity guarantees that Holders will receive an amount equal to their original investment in the Note Securities or guarantees that any return will be paid on the Note Securities. Since the Note Securities are not protected and the Principal Amount will be at risk (other than the minimum Maturity Redemption Payment of 1% of the Principal Amount), it is possible that Holders could lose some or substantially all of their original investment in the Note Securities. See “Risk Factors” in the Prospectus Supplement and the Prospectus.

The Note Securities are redeemable automatically on a Call Date depending on the performance of the Reference Portfolio. In addition, the Note Securities may be redeemed by the Bank pursuant to a Reimbursement Under Special Circumstances. See “Description of the Note Securities – Reimbursement Under Special Circumstances and Payment” in the Prospectus.

The Note Securities are not redeemable prior to the Maturity Date except on a Call Date, and except by the Bank pursuant to a Reimbursement Under Special Circumstances. See “Description of the Note Securities – Reimbursement Under Special Circumstances and Payment” in the Prospectus. The Note Securities will not be listed on any securities exchange or quotation system. National Bank Financial Inc. intends to maintain, under normal market conditions, a daily secondary market for the Note Securities. National Bank Financial Inc. may stop maintaining a market for the Note Securities at any time without any prior notice to Holders. There can be no assurance that a secondary market will develop or, if one develops, that it will be liquid. Moreover, Holders selling their Note Securities prior to maturity may be subject to certain fees. See “Secondary Market for the Note Securities” in the Prospectus Supplement.

The Reference Asset Return for the Reference Asset is a price return, and will not take into account dividends and/or distributions paid by the issuer on account of the Reference Asset. As of June 24, 2019, the dividends and/or distributions paid on account of the Reference Asset in the Reference Portfolio represented an annual indicative yield of 2.90%, representing an aggregate yield of approximately 20.30% over the term of the Note Securities, assuming that the yield remains constant and the dividends and/or distributions are not reinvested.

National Bank Financial Inc. is an indirect wholly-owned subsidiary of the Bank. **As a result, the Bank is a “related issuer” and a “connected issuer” of National Bank Financial Inc. within the meaning of the securities legislation of certain provinces of Canada.** See “Plan of Distribution” in the Prospectus Supplement and in the Prospectus.

Units of the iShares® S&P/TSX 60 Index ETF	XIU	TSX	Closing price	Exchange-traded fund	100.00%

Moreover, the Note Securities constitute Fund Linked Note Securities under the Prospectus.

Initial Level: Closing Level on the Issuance Date.

Currency: Canadian dollars

Maturity Redemption Payment: The Maturity Redemption Payment per Note Security will be as follows:

- (i) if the Reference Portfolio Return is equal to or higher than the Call Threshold on a Call Valuation Date, the Note Securities will be automatically called on the applicable Call Date and the Maturity Redemption Payment will be equal to $\$100 \times [1 + \text{Variable Return}]$; or
- (ii) if the Note Securities are not automatically called and the Reference Portfolio Return is positive on the Final Valuation Date, the Maturity Redemption Payment will be equal to $\$100 \times [1 + \text{Variable Return}]$; or
- (iii) if the Note Securities are not automatically called and the Reference Portfolio Return is nil or negative but equal to or higher than the Barrier on the Final Valuation Date, the Maturity Redemption Payment will be equal to \$100; or
- (iv) if the Note Securities are not automatically called and the Reference Portfolio Return is negative and lower than the Barrier on the Final Valuation Date, the Maturity Redemption Payment will be equal to $\$100 \times [1 + \text{Reference Portfolio Return}]$.

Except for the Coupon Payments during the term of the Note Securities, investors should understand from the foregoing that they will be entitled to a single payment under the Note Securities on either the Maturity Date or a Call Date. If the Note Securities are automatically called, the investment in the Note Securities will terminate as of the applicable Call Date and as such, Holders will receive the Maturity Redemption Payment applicable to such Call Date and not the Maturity Redemption Payment that they would have otherwise been entitled to on a subsequent Call Date or on the Maturity Date if the Note Securities had not been called.

Notwithstanding the foregoing, the Maturity Redemption Payment will be subject to a minimum of 1% of the Principal Amount.

REFERENCE ASSET

The following contains a brief description of the issuer of the Reference Asset, the index it seeks to replicate and tables illustrating the historical price performance and historical volatility of the Reference Asset.

See “Public Information – Fund Linked Note Securities” in the Prospectus. All data and information below is sourced from Bloomberg and/or publicly available sources.

This information is derived solely from publicly available information and none of the Bank, the Dealers or any of their respective affiliates makes any assurances, representations or warranties as to the accuracy, reliability or completeness of such information.

iShares® S&P/TSX 60 Index ETF

The iShares® S&P/TSX 60 Index ETF (the “Reference Fund”) is an exchange-traded fund established as a trust under the laws of the Province of Ontario. While the Reference Fund is a mutual fund under the securities legislation of certain provinces and territories of Canada, it has been granted exemptive relief from certain provisions of Canadian securities legislation applicable to conventional mutual funds. The units of the exchange traded fund iShares® S&P/TSX 60 Index ETF are listed on the TSX® under the symbol “XIU”. BlackRock Asset Management Canada Limited (“BlackRock Canada”) is the trustee, manager and portfolio adviser of the Reference Fund and is responsible for the day-to-day administration of the Reference Fund.

The Reference Fund seeks to provide long-term capital growth by replicating, to the extent possible, the performance of the S&P/TSX 60 Index, net of expenses. The investment strategy of the Reference Fund is to invest primarily in and hold the securities of the S&P/TSX 60 Index in substantially the same proportion as they are reflected in the S&P/TSX 60 Index. The Reference Fund may invest in and hold units of other exchange-traded funds of which BlackRock Canada or an affiliate is the manager, and/or other equity securities, provided that such holding by the Reference Fund is consistent with its stated investment objective. The Reference Fund may invest in futures contracts in order to provide market exposure for cash and may also hold money market instruments, securities of money market funds or cash to meet its current obligations. The Reference Fund may also invest in or use derivative instruments.

Further information about the Reference Fund is available on the following website: www.blackrock.com/ca and information from this website is not incorporated by reference into this Pricing Supplement.

S&P/TSX 60 Index

The S&P/TSX 60 Index is comprised of 60 of the largest (by market capitalization) and most liquid constituents of the S&P/TSX Composite Index. Sectors are intended to mirror sector weights of the S&P/TSX Composite Index.

Further information about the S&P/TSX 60 Index and its constituent issuers is available from S&P® on its website at www.spdji.com and information from this website is not incorporated by reference into this Pricing Supplement.

Historical Reference Asset Data

The following table shows the calendar year and year-to-date (“YTD”) price performance of the Reference Asset which is included in the Reference Portfolio. The YTD price performance is as of June 24, 2019. Historical performance is not a guarantee of future performance. Each year is measured starting from the month of December of the previous year indicated. For example: the year 2018 below refers to the year as measured from December 31, 2017 to December 31, 2018.

	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	YTD
Units of the iShares® S&P/TSX 60 Index ETF	27.81%	11.05%	-11.51%	4.98%	9.88%	9.04%	-10.48%	17.79%	6.67%	-10.48%	14.89%

The following table shows the price performance of the Reference Asset included in the Reference Portfolio from the period beginning on June 24, 2009 and ending on June 24, 2019. The performance for periods that are less than one year is cumulative and is not annualized, and the performance for periods of one year or more is annualized. Historical performance is not a guarantee of future performance.

	1 month	3 month	6 month	1 year	2 year	3 year	4 year	5 year	10 year
Units of the iShares® S&P/TSX 60 Index ETF	1.74%	3.16%	19.37%	1.60%	4.77%	6.94%	3.23%	2.94%	4.86%

The following is a chart illustrating the historical 1-Year and 3-Month volatility of the Reference Asset from the period beginning on June 24, 2009 and ending on June 24, 2019. Historical volatility is not a guarantee of future volatility.

Historical 1-Year & 3-Month Volatility of the units of the iShares® S&P/TSX 60 Index ETF

Volatility is the term used to describe the magnitude and frequency of the changes in a security’s value over a given time period. A higher volatility means that a security’s value can potentially be spread out over a larger range of values. This means that the price of the security can change dramatically over a short time period in either direction. A lower volatility means that a security’s value does not fluctuate dramatically, but changes in value at a steady pace over a period of time.

INVESTMENT STRATEGY SUPPORTING A PURCHASE OF THE NOTE SECURITIES

NBC Auto Callable Contingent Income Note Securities (Maturity-Monitored Barrier)

You should consider a purchase of the Note Securities rather than alternative investments (including a direct purchase of the Reference Asset or exposure to it) if you expect that:

- (i) the Reference Portfolio Return will be equal to or higher than the Coupon Payment Threshold on the Coupon Payment Valuation Dates; and
- (ii) the Reference Portfolio Return will be equal to or higher than the Call Threshold on at least one Call Valuation Date or positive on the Final Valuation Date; or
- (iii) if the Reference Portfolio Return is lower than the Call Threshold on every Call Valuation Date and is negative on the Final Valuation Date, the Reference Portfolio Return will be equal to or higher than the Barrier on the Final Valuation Date.

If your expectations of the Reference Portfolio Return differ from these, you should consider alternative investments rather than an investment in the Note Securities.

SUITABILITY OF THE NOTE SECURITIES FOR INVESTORS

NBC Auto Callable Contingent Income Note Securities (Maturity-Monitored Barrier)

The Note Securities are not suitable for all investors. In determining whether the Note Securities are a suitable investment for you please consider that:

- (i) the Note Securities provide no guaranteed Coupon Payments and if the Reference Portfolio Return is lower than the Coupon Payment Threshold on a Coupon Payment Valuation Date, you will receive no Coupon Payment on the related Coupon Payment Date, and you will receive no Coupon Payments over the term of the Note Securities if this occurs on all Coupon Payment Valuation Dates;
- (ii) the Note Securities provide no protection for your original principal investment and if (i) the Reference Portfolio Return is lower than the Call Threshold on every Call Valuation Date and is lower than the Barrier on the Final Valuation Date, and (ii) the sum of the resulting Maturity Redemption Payment and the aggregate Coupon Payments paid during the term of the Note Securities is less than the Principal Amount, you will receive an amount which is less than your original principal investment over the term of the Note Securities;
- (iii) in a scenario where the Reference Portfolio Return is equal to or higher than the Call Threshold on a Call Valuation Date or positive on the Final Valuation Date, there will be no Variable Return paid if the Reference Portfolio Return on such date is not above the Variable Return Threshold;
- (iv) any positive Reference Portfolio Return in excess of the Variable Return Threshold on a Call Valuation Date or on the Final Valuation Date will be multiplied by a Participation Factor which will result in a Holder receiving less than 100% of such excess positive Reference Portfolio Return, if the Participation Factor is less than 100%;
- (v) your Note Securities will be redeemed automatically prior to the Maturity Date if on any Call Valuation Date the Reference Portfolio Return is equal to or higher than the Call Threshold;
- (vi) your investment strategy should be consistent with the investment features of the Note Securities;
- (vii) your investment time horizon should correspond with the term of the Note Securities; and

- (viii) your investment will be subject to the risk factors summarized in the section “Risk Factors” in the Prospectus Supplement and the Prospectus.

ABOUT THE ISSUER OF THE REFERENCE ASSET

The issuer of the Reference Asset is a reporting issuer or the equivalent in Canada and is required to file periodically certain financial and other information specified by securities legislation. The information provided to or filed electronically with the securities regulatory authorities can be accessed through SEDAR, a filing system developed for the Canadian Securities Administrators that provides access to most public securities documents and information filed by public companies and investment funds with the Canadian Securities Administrators. SEDAR’s website is www.sedar.com. See “Public Information – Fund Linked Note Securities” in the Prospectus.

This Pricing Supplement relates only to the Note Securities offered hereby and does not relate to the Reference Asset or other securities of the issuer of the Reference Asset. The Bank and the Dealers have not verified the accuracy or completeness of any information contained in such documents and information or determined if there has been any omission by the issuer of the Reference Asset to disclose any facts, information or events which may have occurred prior to or subsequent to the date as of which any information contained in such documents and information has been furnished by the issuer of the Reference Asset which may affect the significance or accuracy of any information contained in any such documents and information. Neither the Bank nor any Dealer makes any representation that such publicly available documents or any other publicly available information regarding the issuer of the Reference Asset or the Reference Asset are accurate or complete.

The issuer of the Reference Asset is not an affiliate of the Bank and its affiliates. The issuer of the Reference Asset has not participated in the preparation of this Pricing Supplement, does not take any responsibility or assume any liability with respect to the accuracy or completeness of any information contained herein and makes no representation regarding the advisability of purchasing the Note Securities.

The Note Securities are not in any way sponsored, endorsed, sold or promoted by the issuer of the Reference Asset. The issuer of the Reference Asset is not responsible for and has not participated in the determination of the timing, pricing or number of Note Securities to be issued. The issuer of the Reference Asset does not have any statutory liability with respect to the accuracy or completeness of any of the information contained in this Pricing Supplement and has no obligation or liability in connection with the administration, marketing or trading of the Note Securities. Investing in the Note Securities is not equivalent to investing directly in the Reference Asset. The issuance of the Note Securities is not a financing for the benefit of the issuer of the Reference Asset or any insiders of the issuer of the Reference Asset.

Prospective investors should independently investigate the issuer of the Reference Asset and decide whether an investment in the Note Securities is appropriate.
